We're the Ice Experts!

GREAT REASONS WHY YOU SHOULDN'T BE A **SQUARE!**

CLEAR & PURE

The way which Supercubes are frozen ensures that the maximum clarity and purity is achieved in every cube.

SLOW MELT RATE

Large Supercubes melt slowly reducing dilution making them ideal for high-end, premium drinks & shorts.

NO CORNERS TO CUT

Supercubes don't have any points or corners to break off during the shaking process preventing excess dilution.

RAPID COOLING

Supercubes can rapidly cool ambient drinks making them ideal for bars which cannot pre-chill all of their mixers.

MAKE SURE YOU'VE GOT THE RIGHT ICE MACHINE... MAKE SURE IT'S A **SCOTSMAN!**
